**Note :**

Career: Information systems analysts and consultants, Computer programmers and interactive media developers, Software engineers and designers, Computer and information systems managers, Web designers and developers, Computer engineers, Computer network technicians.

**Program Description :**

The Bachelor in Computer Information Systems at UFV will give you the skills to become a manager in information technology (IT). Your training will include a mix of theory and hands-on learning in well-equipped labs. By graduation, you'll be a digital problem-solver, armed with a versatile set of analytical and technical skills. In years 1 and 2 of your program, you'll tackle foundational courses. These will give you a broad base of knowledge and skills so that you'll be ready to support single and networked systems. In your final two years, you'll deepen your technical knowledge. You'll also learn key business management skills to prepare you for managerial roles. You also have the option to specialize in one of three concentrations to refine your skill-set: Software Development Systems and Networking Security

**Admission Requirement :**

- Completion of Bachelors 2 year with a minimum CGPA of 3.00 based on all credits attempted.
- Principles of Mathematics 12 with a C+ or better
