### **Program Description :**

The overall program mission for the B.S. degree in chemical or petroleum engineering is to provide a modern chemical or petroleum engineering education with proper balance between theory and practice. Graduates are prepared for professional practice in industry or government and for post-undergraduate training in chemical or petroleum engineering, medicine, etc. In addition to scientific and engineering training, students receive training in educational skills and in the humanities and social sciences. Petroleum engineering is the branch of engineering concerned with the drilling, recovery, production, and distribution of petroleum and natural gas. It includes knowledge of the properties of fluids and rocks in surface and subsurface environments as well as methods of exploiting the economic production of oil and gas from petroleum reservoirs. A major subdivision at KU is reservoir engineering, or the development of processes to improve production from oil and gas reservoirs. Reservo

### **Admission Requirement :**

- High School GPA of 3.5

### **General Checklist :**

\* All the above information must be verified with Institution/Country Website

1. Passport
  2. High School Certificates: Grade 10th, 11th and 12th.
  3. SAT result
  4. IELTS or TOEFL score card
  5. Statement of Intent.
-
