Program Description :

This course is designed to enable students to achieve a comprehensive and greater understanding of information technology in specialised technical or management areas for the IT professional. The wide range of specialisations allows students to tailor the course to satisfy and to broaden their career development needs. It is essential to keep IT knowledge and skills up to date. This course provides students with an enhanced understanding of the business context and technical developments shaping contemporary information and communications technology (ICT), and equips them to meet the challenges of working in the IT industry, as well as providing the opportunity to develop skills in alternative IT disciplines. Students who wish to undertake a substantial research project have the opportunity to transfer to the Master of Information Technology (Advanced) (C04297).

Admission Requirement :

- A UTS recognised bachelors degree in Information technology or an equivalent.
- English language scores.
