Program Description :

A bachelor's degree in pharmacy will equip you with the skills and knowledge you need to work in rural, regional and metropolitan healthcare settings. Studies in chemistry and biology come together in this course, along with practical instruction in community and hospital pharmacy, dispensing, medication management and health counselling. You'll learn the soft skills that allow pharmacists to work effectively with people of all ages and backgrounds, including communication and interpersonal skills, time management, decision-making and problem-solving. You may also participate in specialist areas of study, such as rural health, vaccination training and international programs.

Admission Requirement :

- A completed Higher School Certificate with the Minimum ATAR required (including adjustment factors) or equivalent.
- OR**
- A completed Special Tertiary Admissions Test (STAT) with an equivalent ranking to the currently listed ATAR.
- OR**
- Successful completion of two University level subjects (AQF level Associate Degree or higher) demonstrating a reasonable prospect of success through Grade Point Average (GPA) gained in these studies.
- OR**
- A completed AQF Diploma level qualification or higher-level qualification.
- OR**
- A completed Tertiary Preparation Course from an Australian University or an accredited provider demonstrating a reasonable prospect of success through the Grade Point Average (GPA) gained in these studies.
