Program Description :

The graduate degree in biomedical engineering combines faculty, resources and expertise from its prestigious Colleges of Engineering and Medicine. One of the few such interdisciplinary advanced degree programs in the country, the BME graduate program offers four different areas of specialization - Medical Device Design, Medical Imaging and Regenerative Medicine. The degree provides students with the knowledge and tools to develop revolutionary healthcare devices, procedures, and treatment strategies for the 21st century. The field of biomedical engineering is expected to lead engineering employment growth in the next decade.

Admission Requirement :

- The student must have a Cumulative Grade Point Average of 3.0 and higher in their Bachelors Degree from an accredited institution.

General Checklist :

- Bachelors all semester mark sheets and Degree Certificate.
- Grade 10th and 12th Mark sheets
