Program Description :

Robotics and Autonomy/Automation is an emerging field involving multiple engineering disciplines. Advanced intelligent hardware devices and software currently make it possible to design elegant and sophisticated autonomous robotic devices whose capabilities far surpass older purely electro-mechanical automation systems. These systems will often be connected to the internet or allow some type of remote monitoring, and thus they will be vulnerable to various types of cyber-attacks. These systems must be made reliable, safe, and secure.

Admission Requirement :

- Undergraduate degree in engineering, computer science or a closely related field with a cumulative GPA of 70% or better.
- GRE scores-300 and above.

General Checklist :

- Bachelors all semester mark sheets and Degree Certificate.
- Grade 10th and 12th Mark sheets
- Work Letters: Appointment and Experience Letters
- Resume
- Passport
- English Language Score Card: TOEFL or IELTS should be send directly to University electronically.
- Statement of Purpose
- Letter of Recommendation
