Note :

Chemistry graduates are employed in computers and telecommunications, fine and heavy chemical manufacturing, food and beverage production, mining and metallurgy, petroleum, pharmaceuticals/drugs, plastics, and pulp and paper. They are also employed by government agencies in education, forensic investigation, mineral analysis, public health, research and development support for resource industries, technical and analytical information development, waste management, and water and air quality management.

Program Description :

The Faculty of Science at TRU offers a four-year Bachelor of Science degree program. Students can expect opportunities for practical, hands-on experience across a spectrum of science disciplines in the classroom, in the lab and in the field. In addition, there are opportunities for students to work with nationally and internationally recognized professor-researchers in their research laboratories. This is a rigorous program that provides students with both depth and breadth in their science education. Communication skills and computer literacy are promoted.
